rpg maker vx ace - fantastic buildings modern

It's a comedy adventure game, so the main things are the comedy writing and the puzzles.

The humor and satire feels a bit "out of touch old person" at times, even beyond the amount afforded by the premise, but the game was largely smartly written. It's very aware of what it is and how it fits into modern times, keeping it away from the groan-inducing territory of Thimbleweed Park. Larry and his ideals are shown in contrast to modern values, which gives the writing plenty of opportunity to poke fun at him. I do wish that Larry had any amount of a character arc, though.

The puzzles were a very uneven experience for me. There tend to be periods where you amass a ridiculous amount of inventory items, followed by long, satisfying chains of solutions. The problem comes when you miss an item (which I did a few times before finding the space bar) or are stuck at one of the less obvious puzzles, and are blocked off from the rest of the chain, even though you have everything needed. The UI animation also makes trying items a slow process. Overall though, I really liked the puzzles. It feels good to knock out strings of puzzles that all make sense within the world.

I would be happy to see more of these get made, though I hope the satire would get a bit sharper.. old and not even working.. Played this game on mobile, then playstation and now on steam

Pros:

- casual fast-paced game
- big combos possible
- challenging modes
- great practice for aiming and projectile movement

Cons:

1 of 10 levels can be unlucky, no power ups then you lose even with good skill

. Sure is a interesting game and a good laughter.

Grafics is 10V10 and sure gave me a heart clap first time i got in contact with any of the Turtles.. This is what happens when you try too hard to be intellectual and self-aware. Many games try the same, but only a few can fail this bad and result in such a laughable project. Really hoping whoever made this makes good use of the profit, maybe buying a dictionary or two because holy sh\u1d09t what a poor grammar this game has. Calling this joke that went too far a "game" is a compliment at this point, must be why somehow it managed to shine between smaller youtubers. Personally, I can't help but imagine that the developer is trolling and only made the spelling mistakes on purpose just to get a good laugh in the background. By the time you're reading this review I already refunded, don't buy this waste of time.. We all have our guilty pleasures.. Doesn't really make much sense. Highly skeptical of all these glowing reviews here.

Just no feedback to any of your actions, crappy voice acting and animations, no sense that you're really "doing" anything.

mini battlegrounds is a great game but it will be nice if more people plays it. Although there are not many new features compared with XCOM, but it does have an element of fresh creativity hovering around as you play. A little lacking on animations, but I am actually having a good time playing it and I am actually choosing to play it over a few AAA games that I currently own.

I'm looking forward to future updates, hopefully this will continue strongly!. Zebruh was by far the absolute worst troll and I was worried that he would be too awful for me to truly enjoy his routes but I was pleasantly proven wrong. While he is still the worst, I'm really glad how the route was written, because there were definitely some really funny parts and tbh the mind gymnastics this dude showed were incredible in the worst way which was pretty amusing. ????? was amazing, not only in the route but the music. It goes without saying but the art is always fantastic regardless of which artist is in charge. Anyways ????? was surprisingly heart warming, a welcomed contrast to Zebruh XD and the references made in this route were super cool.. This game is fantastic! As I played this game, it seemed really realistic with the talking. It was also really interesting that you could choose different paths like when you are talking with someone in the game you could disagree or agree and that could lead on to what happens later on in the game. I personally think maker\creator of the game made multiple story paths so this game has meaning and liveliness. This game is also really fun even though it is kind of difficult at first, but you will get the hang of it in about 5 minutes, and that's what makes it fun. This game is not just some mindless action, there is also a hint of logic and thinking. I felt accomplishment because of the mixture of feelings and actions in the game. Besides, the game pictures are well-designed and very artistic and I also liked the music. One suggestion for upgrading the game is to include some AI elements, for example, using speech recognition to conduct speech conversation.. Buy it, then Golf it. 10/10 would become super ninja again. Great game. Recommend. Great Game!. wow this was more fun than I had anticipated
9/10 would make cutlery and fruit explode by punching them again
